---

<sup>1</sup>Survey results were achieved from a survey that was hosted on [endvengporn.org](http://endvengporn.org) from August 2012-Dec 2013. Participants self-selected into the study by visiting our websites and filling out the survey on their own accord. Results depicted are reflective of a female-heavy sample, due to most of our site visitors being women at the time.

- 30% said they have been harassed or stalked outside of the Internet (in person, over the phone) by users that have seen the material online
- 40% fear the loss of a current or future partner once he or she becomes aware that this is in their past
- 54% fear the discovery of the material by their current and/or future children
- 25% have had to close down an email address and create a new one due to receiving harassing, abusive, and/or obscene messages
- 26% have had to create a new identity (or identities) for themselves online
- 9% have had to shut down their blog
- 26% have had to close their Facebook account
- 11% have had to close their Twitter account
- 8% have had to close their LinkedIn account
- 26% have had to avoid certain sites in order to keep from being harassed
- 54% have had difficulty focusing on work or at school due to being a victim
- 26% have had to take time off from work or take less credits in/a semester off from school due to being a victim
- 8% quit their job or dropped out of school
- 6% were fired from their job or kicked out of school
- 13% have had difficulty getting a job or getting into school
- 55% fear that the professional reputation they have built up could be tarnished even decades into the future
- 57% occasionally or often have fears about how this will affect their professional advancement
- 52% feel as though they are living with something to hide that they cannot acknowledge to a potential employer (such as through an interview).
- 39% say that this has affected their professional advancement with regard to networking and putting their name out there
- 3% have legally changed their name due to being a victim
- 42% haven't changed their name, but have thought of it
- 42% have had to explain the situation to professional or academic supervisors, coworkers, or colleagues
- 51% have had suicidal thoughts due to being a victim
- 3% of victims have posted NCP of someone else
